Environ Health Perspect 128(7):077005 (2020), <https://doi.org/10.1289/EHP6837>

The published manuscript contained three errors in Table 1:

- The header for the seventh column should read “# of fluorinated carbons” rather than “Perfluorinated carbons (*n*).”
 - The number of fluorinated carbons (column 7) for NVHOS should be 4 rather than 3.
 - The U.S. EPA registry name (column 2) for PFOA should be Perfluorooctanoic acid rather than Perfluorooctanoic acid.
- EHP regrets the errors.
